Why would your BUSINESS want a BROKER rather than an agent?

West Coast Insurance Brokers is different than your typical agency . We put our client's best interests at heart.

We shop all the insurance companies - many you won't have access to - and find the most competitive rates and coverage.

How We Go Above & Beyond

- 24/7 Customer Service
- Advocates on your audits
- Sends updates to CCB on your behalf
- Assist with paperwork
- Updates to endorsements & Certificates

Sophia Adams
President

Get in touch with West Coast Insurance Brokers today!
Take advantage of our **FREE** gift cards for referring your friends.
(Upon your referral starting coverage.)

Addendum:5

Description: New roof, and replacement of damaged insulation. New HVAC systems, including packaged rooftop units, furnace, heat pumps, fan coils, exhaust fans. Add multi-user restrooms. Add shower facilities. Add laundry rooms. Add commercial kitchen, including walk-in cooler / freezer, kitchen hood / exhaust / fire protection, make up air unit, lighting, pass-thru serving window/ counter, sinks, drains, etc. (refer to add/alternate list for other kitchen equipment). Add conference room. New lighting in renovated areas. Utility modifications / upgrades to accommodate new layout and uses (including new electrical main distribution panel and branch panels, convert to single gas meter, water service and meter / backflow, water heater, grease/water interceptor, sewer drain lines). Construct mechanical mezzanines above the conference room and multi-user restroom. Epoxy floor coating in wet areas, and polished concrete in sleeping and office areas. Modifications to the fire sprinkler and fire alarm systems. m) Infill of multiple exterior wall openings in the southern half of the building, including large roll-up door, windows, and man doors. Limited other exterior improvements, including two egress gates, signage and striping for ADA parking, and exterior lights.

Viking

CONCRETE CUTTING INC.

Concrete Scanner (GPR)

Our concrete scanner is one of the newest tools we have at Viking Concrete Cutting. Using ground penetrating radar (GPR) we have the ability to scan up to 20 in. deep in many different surfaces. We can locate things such as rebar, post tension cables, conduit and many other things. With this state of the art equipment and over 20 years of construction knowledge we are sure we can provide you safe and accurate answers with every scan we do.

Call us to discuss your upcoming projects.

Description: Replace four sections of 1 Skv MV conductors, four transformers, a 480v outdoor switchboard, and one sectionalizer that will be serviced. New vaults for each of the transformers and switchgear are preferred however, poured transformer pads with pre-cast vault lids are okay at Ponderosa and Mazama buildings. The existing campus loop conductors will be abandoned in place. Transformers and switchboard will be furnished and stored by COCC on location. Electrical contractor will be responsible for transporting and placing the owner furnished switchboard and transformers from the storage yard to the installation site.

Conger Elementary Engineering Services

Klamath Falls, Or.

Bid Date/Time: 8/31/23 2:00pm

Pre-Bid: Mandatory 8/17 9am on site, 1700 California Ave. Klamath Falls, OR.

Contact: Daymond Monteith

Phone: 541-883-4703

E-Mail: monteithd@kfalls.k12.or.us

Description: The District intends to use either the typical Design-Bid-Build procurement project delivery method or the CM/GC procurement project delivery method for this Project. The intent of this RFP is for the consultant to provide an integrated design solution for the entire school. As part of this grant, a preliminary rehabilitation feasibility report was prepared for the project; this report is enclosed with the RFP. KFCS was awarded \$2,499,820 for the design and construction of Joseph Conger Elementary School Seismic Rehabilitation.

The advertisement for Truesouth Solar features a photograph of a modern house with solar panels installed on the roof. The house has a mix of wood, blue, and white siding. In the top left corner, the "truesouth SOLAR" logo is displayed, with "truesouth" in a large, lowercase, orange and black font and "SOLAR" in a smaller, uppercase, black font. On the right side, there is a large circular graphic with an orange border and a dark gray background. Inside the circle, the text reads "WE KNOW SOLAR" in large white letters, followed by "Quality solar, quality people, 100% local." and "Request your FREE residential or commercial quote today!" in smaller white text. At the bottom of the circle, the website "www.truesouthsolar.net" is listed in a small white font.

R2 Bridge Maintenance Eugene 202 Bundle

Eugene, Or.

Bid Date/Time: 8/31/23 2:00pm

Contact: Joanne Robinson

Phone: 503-569-8015

E-Mail: joanne.m.robinson@odot.oregon.gov

Description: Perform grinding, installation of bridge membrane, and paving on 3 bridges in the Eugene area.

Engineering Services Crosstown Bikeways

Bend, Or.

Bid Date/Time: 8/31/23 3:00pm

Contact: Dan Galanaugh

Phone: 541-323-8570

E-Mail: dgalanaugh@bendoregon.gov

Description: The City of Bend requests proposals to provide the professional services associated with design development for the Crosstown Bikeways. The Project will further develop the Low Stress Network (LSN) by constructing and providing connections to existing or planned LSN infrastructure that are continuous, easy to navigate and as separated from traffic as feasible.

Bear Creek Fish Passage Barrier Removal

Medford, Or.

Bid Date/Time: 8/31/23 5:00pm

Pre-Bid: Non-Mandatory 8/16 10am in the parking lot of Hawthorne Park near the corner of Jackson Street and Hawthorne Street and will include a walking tour of the project site.

Contact: Greg Stabach

Phone: 541-423-1370

E-Mail: gstabach@rvcog.org

Description: RVCOG proposes to address fish passage concerns from 3 barriers located in Bear Creek in Medford. The barriers are one obsolete irrigation structure (weirs – structure #1), a collection of flow-impeding rubble (structure #2), and one abandoned utility line (structure #3) from the Bear Creek stream channel. Providing fish passage would restore access to 8 miles of aquatic habitat upstream and improve fish passage. The initial focus for the contract will be to complete a hydraulic analysis of the structures, identify a preferred alternative at each site, complete concept drawings, and develop 30%, 60%, and complete design sets for the three structures.

E-Mail: kenwilcox@rjsconst.com

Addendum:5

Description: This is the second phase of a multi-phase site development project that will have government operations occurring on site simultaneously during construction. The work under this contract includes construction of a new approximately 13,242 square foot Office Building at the current Sisters Ranger District site in Sisters, Oregon. Work includes but is not limited to the following construction methods and descriptions. The building will be a single-story, wood framed building, spread footing foundation with a concrete slab on grade. Building components include fiber cement siding, vinyl and storefront windows, composite roofing; HVAC, plumbing and electrical systems. Site work will include clearing, demolition of three existing, conventional wood-framed structures, hazardous building material abatement, demolition of existing utilities, excavation/embankment work, new underground utility construction including sanitary sewer, water, power/phone/cable, storm water improvements, parking lot construction, irrigation, and landscaping. Also included are site improvements within city of Sisters right-of-way and furnishing of temporary office building(s).

Ringe Pool Reconstruction Design RFP

Yreka, Ca.

Bid Date/Time: 9/1/23 5:00pm

Contact: Jason Ledbetter

Phone:(530) 841-2386

E-Mail: jledbetter@ci.yreka.ca.us

Description: The City of Yreka is requesting proposals from qualified design, architectural, and engineering firms (“Firms”) to provide design, architectural, and engineering services for the reconstruction of Ringe (“ring-ee”) Pool. The City of Yreka (“City”) invites qualified firms to submit proposals to provide complete architectural and engineering design and construction cost estimating services for the demolition, remodel, and construction of Ringe Pool Project.

Blue River Community Water Distribution

Blue River, Or.

Bid Date/Time: 9/1/23 5:00pm

Contact: Robert Woodard

E-Mail: robert.woodard@lanecountyor.gov

Description: Engineering and construction services associated with the Blue River Community Water Distribution Project. The contract will be for approximately a three-year period from October 2, 2023 through December 1, 2026.

Conex Roofing & Gate Install

Orleans, Ca.

Bid Date/Time: 9/4/23 5:00pm

Contact: Emma Lee Perez

Phone: 530-493-1600 ext. 2017

E-Mail:emmaleeperez@karuk.us

Description: Roofing and gate installation at the Tishániik Farm in Orleans, CA. The Shield Up roof model #GB36SP will be installed over two 40'x 8' High Cube Conex boxes with a 20-foot space between them. The Shield Up roof with hardware has been purchased and will be provided for installation but the contractor will need to provide the equipment to install (likely a boom lift). Prior to the roof installation the Conexes will need to be squared and leveled which is likely a matter of minor adjustments. Gates on either side of the structure should be built into this proposal total. Gating should be solid or sheet metal clad, and welded or otherwise securely attached to the Conex boxes and fully opening from the center to provide full access to the 20-foot opening.

Social Services Building A ADA Modification

Eureka, Ca.

Bid Date/Time: 9/5/23 2:00pm

Pre-Bid: Non-Mandatory 8/16 2pm on site, 929 Koster Street, Eureka, CA.

Contact: Travis Smith

Phone: (707)-445-7266

E-Mail: ada@co.humboldt.ca.us

Description: Removal & replacement of path of travel elements, including concrete walks, ramps and extension railings. Addition of direction and entry signs.

Conduit Install Daisy St.

Springfield, Or.

Bid Date/time: 9/5/23 2:00pm

Pre-Bid: Mandatory 8/30 10:30am 5335 Daisy St. Springfield, OR.

Contact: Sandi Weston

Phone: 541-744-3706

E-Mail: sandiw@subutil.com

Description: Install underground facilities consisting of three (3) three-inch (3”) conduits & three (3) Secondary Pedestal for new underground electric distribution cable for the entire length of the project. The work will consist of boring & installing Secondary Pedestals at one location.

Duff Water Fiber Conduit Installation

Central Point, Or.

Bid Date/Time: 9/5/23 3:00pm

Contact: Andy Huffman

Phone: 541-774-2455

E-Mail: andy.huffman@medfordwater.org

Description: The work consists of: asphalt/concrete cutting, trenching, installation of piping, appurtenances and residential service lines, backfill, compaction, and restoration of roadways. The contractor will need to coordinate with Medford Water for field inspection and owner provided work as well as the City of Medford Public Works for work within the roadways.

Deschutes County Courthouse Expansion

Bend, Or.

Bid Date/Time: 9/7/23 5:00pm

Contact: Jeff Soukup, Pence Construction (GC)

Phone: (503) 252-3802

E-Mail: jeffso@pence.net

Description: Deschutes County is building a new 55,000 square foot addition to their existing courthouse located next door in their existing parking lot. Building is four stories with one lower level and three levels above. Full build out is intended for lower level through level 2 with the third floor being left as a warm shell. The new building will tie into the existing building on at least two levels.

OR Klamath NWR Hazard Fuel Reduction

Tulelake, Ca.

Bid Date/Time: 9/8/23 5:00pm

Contact: Thomas Ikner

E-Mail: thomas_ikner@fws.gov

Description: The U.S. Fish and Wildlife Service intends to implement treatments to reduce hazardous fuel loading and restore the beneficial effects of fire to the ecosystem within Klamath Marsh NWR. Treatment will consist of small tree thinning and/or removal, pruning, and mowing/mastication of brush on suitable ground within the boundary of the Klamath Marsh NWR (see Map 1). Final treatment acreage is dependent upon site conditions (slope, rocks, vegetation structure, etc.) and funding. Units will be delineated after the contract has been awarded. Treatment will be accomplished by hand operated chainsaws and ground based mechanical equipment including but not limited to rubber tired or tracked skidders, excavators, and skid steers with mastication or mowing implements. The initial work will be no less than 200 acres.
