Why would your BUSINESS want a BROKER rather than an AGENT?

West Coast Insurance Brokers is different than your typical agency. We put our client's best interests at heart. We shop all the insurance companies—many you won't have access to—and find the most competitive rates and coverage.

How We Go Above & Beyond

- 24/7 Customer Service
- Advocates on your audits
- Sends updates to CCB on your behalf
- Assist with paperwork
- Updates to endorsements & Certificates

Sophia Adams, President

We Specialize in Contractors Insurance

- Contractors License Bonds
- General Liability
- Payment Performance Bonds
- Commercial Auto Insurance
- Workers Compensation Insurance

(CA - DBA Sophia Adams Insurance Services)

At West Coast Insurance Brokers, our mission is to redefine the insurance experience. As President and an active broker, I founded this company with a belief in going beyond mere sales to empower individuals and businesses through personalized insurance solutions. We are dedicated to navigating the complex world of insurance, tailoring our services to meet the unique needs of each client. Our commitment extends beyond transactions; we cultivate an environment where our team members thrive and where customers feel supported, educated, and empowered. By prioritizing assistance over sales quotas, we strive to build lasting relationships built on trust, expertise, and genuine care.

City of Prineville 2024 ASR#2 Well & Pump Station

1/21/25
2:00pm
Contact: Lori Ontko
Phone: (541) 447-2340
E-Mail: lontko@cityofprineville.com
Pre-Bid: Mandatory 12/19/24 2pm in the City of Prineville, Council Chambers located at 387 NE Third Street, Prineville, Or.

Prineville, Or. **Description:** The City of Prineville is seeking a general contractor capable of completing construction of a municipal groundwater well with associated pump station (Project), and conducting well pump tests and turn-key project delivery through a competitive bid process. The new municipal production well is to be installed at the current location of an exploratory well by enlarging the existing well to the design size and completing the site with an operatable pump station that will allow the City to meet current and future demands, while also providing for the City's long-term aquifer storage and recovery program.

BLM Gerber Recreation Area Repairs

1/23/25
12:30pm

Contact: Steve Smith
Phone: (253) 778-2497
E-Mail: steven.smith@doyongovgrp.com

Lakeview, Or.

Description:

Gerber Rec Area waterline replacement.

replacement of frost-free hydrants, system valves, system drains, air/vacuum

valves, installation of pressure reducing valves at each campground, and replacement of appurtenances to accomplish this work. New HDPE pipeline is proposed to follow the existing pipe alignment, and the existing pipeline is to be abandoned in place.

North Camp Secondary Circuit Replacement

installation of a preplacement circuit for the vault toilet serving the north campground. The existing circuit has a compromised conduit allowing water to enter the conduit and fills the junction box with water. The entire circuit is to be replaced with new conductor and conduit. If possible eliminate the junction box. New circuit is to be place in the same trench as the new waterline. Existing circuit will be abandoned in place where practical.

North Camp Vault Toilet Replacements

pumping, removal, and disposal of two (2) double vault toilet 750 gallons each. One double vault toilet with wood framed structure and associated partitions and concrete slab are to be removed. The second double vault toilet is a precast unit the building with vaults and exiting concrete walkway as defined on drawings are to be removed. Also included are the purchase and delivery of two (2) pre-engineered pre-fabricated concrete double unit vaulted toilet building with equipment chase. One (1) building (At boat ramp site) will be installed 6" higher than the existing building and must have raised pumping hatches. New buildings must be connected to existing power supply.

South Camp Vault Toilet Replacements

pumping, removal, and disposal of one (1) double vault toilet 750 gallons each. The existing double vault toilet with wood framed structure, associated partitions and concrete slab are to be removed as shown in the drawings. Other existing concrete walkway to remain. Also included is the purchase and delivery of one (1) pre-engineered pre-fabricated concrete double unit vaulted toilet building with equipment chase. New buildings must be connected to existing power supply.

Barnes Valley Vault Toilet Replacement

pumping, removal, and disposal of one (1) single CXT 1000-gallon precast vault toilet. Purchase and Delivery of one (1) pre-engineered pre-fabricated concrete single unit vaulted toilet building.

Supply and Delivery of High Build, High Performance Waterborne Traffic Line Paint 2025

1/29/25
2:00pm

Contact: Chuck Schutte
E-Mail: chuck.schutte@deschutes.org

Deschutes Co. Or.

Description: The Work will consist of, but not be limited to, furnishing, preparation and delivery of striping materials as follows:

- Durable Ultra High Build, High Performance Waterborne Traffic Line Paint (100% Latex Polymer Emulsion)
- 22,000 gallons of yellow
- 22,000 gallons of white

MRI Site Prep Rebid

1/29/25
5:00pm

Contact: Meredith Valentine
E-Mail: meredith.valentine@va.gov

Pre-Bid: Site visit has been added for White City on 1/15 at 1pm. The MRI Building is located on Avenue R West next to Building 248.

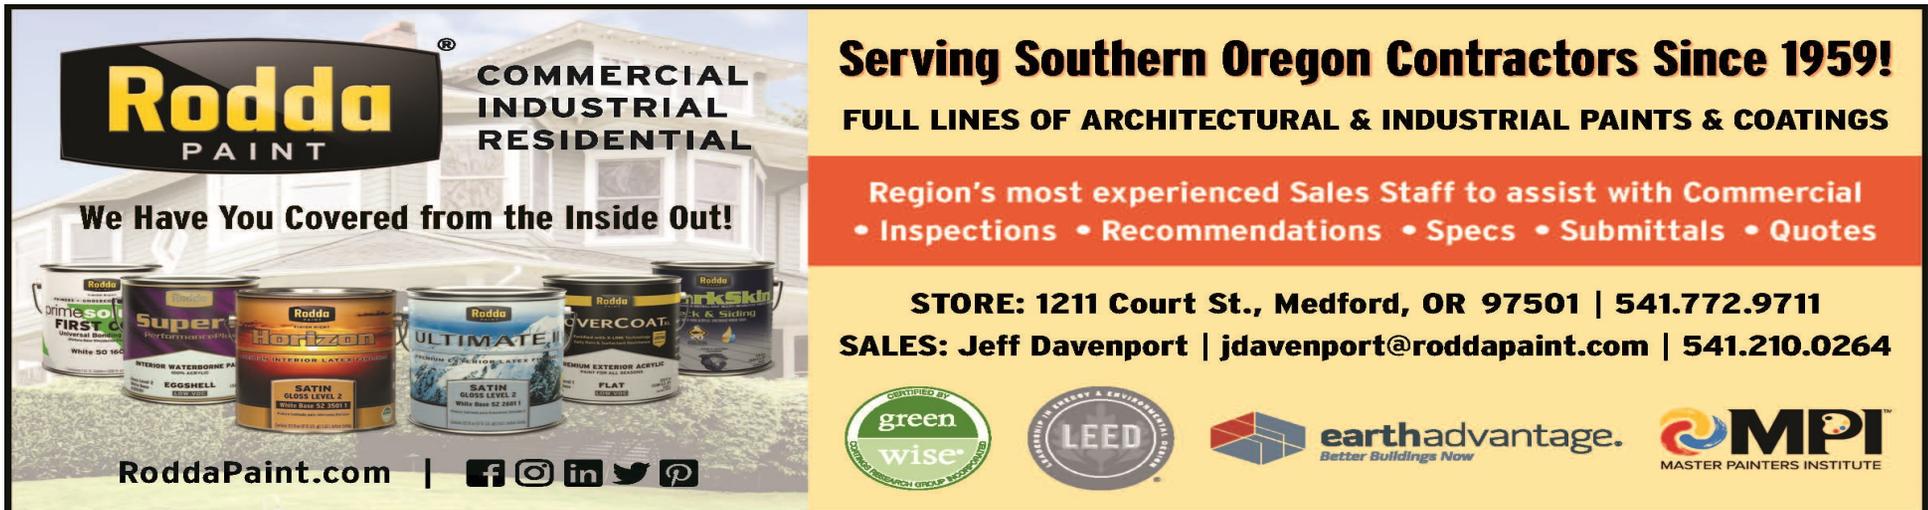

White City, Or.

Description: All necessary alterations, roads, walks, grading, drainage, removal of existing structures, and general construction for installation of a manufactured office space and MRI.

Addendum:2

The project will include:

- a. Site preparation at the White City location for the installation of a manufactured double wide trailer and a modular MRI unit. Site preparation cannot begin until contractor has obtained a 1200CN permit.
- b. Coordination of the removal and transport of the MRI from the Vancouver campus to the White City site, and installation into the new manufactured double wide trailer. Contractor is responsible for obtaining all appropriate transportation permits in advance of proceeding with removal and transport of MRI from the Vancouver campus.
- c. Restoration of the Vancouver site, per plans.

Crater High School Phase 5C MEP & Seismic

1/30/25 **Contact:** Quincee Zoller, S & B James (GC)
2:00pm **Phone:** 541-826-5668
E-Mail: quinceezoller@sbjames.com

Central Point, Or. **Description:** seismic rehabilitation of Crater High School in Central Point, OR. Work includes:

- MEP: A continuation of the MEP upgrade District Bond package. Design completed for the two-story portion of the main campus building, and is a continuation of the completed 5A scope.
- Truss Replacement: Existing damaged wood bowstring trusses are to be replaced with new metal truss system, designed to currently adopted code, with a new roof shape to the building. Interior second floor ceilings will be replaced in their entirety. Existing MEP is salvaged, stored, and re-installed into the replacement ceilings.
- Roof Replacement: A new metal, standing seam roof, thermally insulation to currently adopted codes, in provided to replace the existing asphalt roofing, drainage will use the existing locations with the new gutters and downspouts.
- Elevator Addition: A new exterior concrete shaft and hydraulic elevator is added to replace the existing noncompliant elevator, improving accessibility to the second floor, including metal shed roof to protect users of the elevator from the overhead inclement weather.
- Seismic Retrofit: The existing concrete structure will be upgraded to complete with current codes. Finishes and repair related to the seismic retrofit are included in this portion of work.
- Misc: Minor readjustment of interior partitions, renovation of egress stairs adjacent to the 'Broadway' corridor and repainting of surfaces to brighter colors to create less hazardous egress; interior painting throughout; new restroom layout with full height partitions.

24-7 EMERGENCY RESPONSE CCB #226480

Tumalo Community School Design Services

1/31/25
2:00pm

Contact: Chad Franke
Phone: 503-508-7522
E-Mail: chad.franke@hmkco.org

Pre-Bid: Mandatory 1/15 3pm at Tumalo Community School, located at 19835 2nd Street, Tumalo, OR

Redmond, Or.

Description: project involves modernization, remodeling, and the addition of new spaces to enhance educational facilities and address infrastructure needs. The building addition includes three new classrooms designated for 6th, 7th, and 8th grades, as well as a dedicated science room, totaling four additional classrooms. The kitchen and cafeteria areas will be expanded to accommodate increased capacity and improve functionality. Renovations will focus on upgrading electrical outlets in existing classrooms to meet current technological demands and enhancing the main office to streamline administrative operations. Interior finishes such as painting and replacing ceiling tiles in the existing school structure are planned to refresh and modernize the learning environment. Restroom facilities will undergo remodeling to ensure compliance with accessibility standards and to improve overall conditions. Site improvements include addressing drainage issues to prevent water accumulation, enhancing the courtyard to provide a more inviting outdoor space, and repairing asphalt surfaces to ensure safety and durability.

The District intends to employ a Construction Manager | General Contractor (CM | GC) delivery method, with the CM | GC joining the project team at the 50% Schematic Design phase to enhance integration and preconstruction planning.

HVAC Maintenance Repair Replace Roseburg

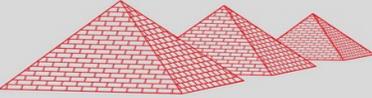

2/3/25
3:00pm

Contact: Darla Glick
Phone: 971-375-3988

South Slope Phases IV-V Closure Project Short Mountain Landfill

2/4/25
10:00 am

Contact: Jesse Berger
Phone: (541) 521-6580
E-Mail: jesse.berger@lanecountryor.gov

Pre-Bid: Mandatory January 16, 2025 11:00am via Microsoft Teams.

Lane Co. Or.

Description: The final cover system incorporates the following layers from bottom to top:

- A geocomposite drainage layer (could also be 6- to 8-inch thick coarse sand or gravel layer) with a pipe network to serve two functions: (1) collection of side slope seeps that were directed to the leachate collection system at the toe, and (2) collection of landfill gases below the final cover to promote final cover stability. This drainage layer might be directly over waste, or may be over some thickness of interim cover soils.
- An 18" thick 'interim soil' cover layer of site silt/clay soils with hydraulic conductivity < 1E-05 cm/s (which is easily met by the site sandy and clayey silts).
- A 60-mil LLDPE geomembrane barrier layer.
- A geosynthetics drainage layer, or alternatively it could be a 12" thick granular drainage layer.
- An 18" thick vegetative soil layer that is planted with grassy vegetation.

In addition, there are many landfill gas collection and control system (GCCS) design elements that are included in the current design. However, this design basis report does not present the design basis of the GCCS design elements but includes their impacts on the final closure design and construction sequencing.

Statement of Qualifications A & E Related Services

2/4/25
12:00pm

Contact: Rebecca Wheeler
Phone: (541) 744-3756
E-Mail: rebeccaw@subutil.com

Pre-Bid: Mandatory 1/15 2pm at the CWT Building located on the UCC campus at 1140 Umpqua College Road, Roseburg, OR.

Roseburg, Or. **Description:** The project involves the remodel/renovation of current instructional and laboratory spaces:

- Asbestos Abatement. An abatement study and survey will be provided by the College.
- Removal of built-in cabinetry and desks.
- Rewiring of electrical, lighting, data, and mechanical components, and information technologies.
- HVAC additions and modifications.
- Interior wall finishes.
- Painting of all rooms.
- Flooring work, to be determined.
- Final project custodial cleaning.

- Relocation of building network system.
- Installation of additional cameras to the building.
- Installation of proximity card reader access points.
- Removal of all debris.
- Responsible for all permit filing, cost and fees associated with the project.
- Furniture, fixtures and equipment are to be included in the overall project cost. Responsibility of procurement and supply of these items will be clarified at a later stage.
- Enclosure of two breezeways with installation of entry/exit proximity card reader doors.

The anticipated budget for this project is \$2.5 million.

Addendum:3

Glide Water Association Water Treatment Capacity

2/6/25
2:00pm
Contact: Matthew Boley
Phone: 541-266-8601
E-Mail: mboley@civilwest.net

Pre-Bid: Mandatory 12/18 at Glide Water Association's Water Treatment Plant, located at 351 Bobcat Ln, Glide, OR.

Glide, Or. **Description:** This project includes the connection of a procured water treatment filter station to the existing water treatment plant and all necessary appurtenances; this includes Victaulic piping and pipe supports. Also, the installation of procured electrical equipment and all necessary wiring, conduit and cable trays. As well as the restoration of the existing water treatment filter station, which includes inspection of filter tank, removal of existing treatment equipment inside the tank, and installation of procured treatment equipment in existing filter tank. Lastly, the installation of procured filter pumps and distribution pumps, and removal of unused equipment, pipes and conduit. Demo and installation of items will need to be phased so that Glide Water Association's treatment plant remains operational with no more than 8 hours of being offline. As mentioned above, much of the larger equipment of this project has already been procured by Glide Water Association and the plans list out the specific items.

Addendum:4

Well, Booster Pump Maintenance & Repair Service

2/13/25
2:00pm

Contact: Tina Kirchner
Phone: (541) 504-2050
Email: tina.kirchner@redmondoregon.gov

Redmond, Or.

Description: The City of Redmond is requesting proposals (RFP) from qualified companies to provide preventative, routine, corrective and emergency maintenance services on the Public Works, Water Division's well and booster pump facilities (Project). The Contractor must be able to respond to emergency repairs within 24 hours and within 48 hours for non-emergency repairs. The work includes, but is not limited to, all labor and equipment to repair, replace, adjust, and maintain pumps and related mechanical systems; inspection; testing; and emergency response. The selected Contractor(s) must also be able to supply all parts that are associated with proper pump operation and performance to include actuators, valves and pump motors.

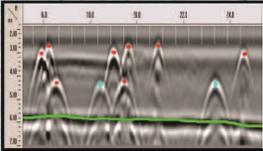

Viking

CONCRETE CUTTING INC.

Concrete Scanner (GPR)

Our concrete scanner is one of the newest tools we have at Viking Concrete Cutting. Using ground penetrating radar (GPR) we have the ability to scan up to 20 in. deep in many different surfaces. We can locate things such as rebar, post tension cables, conduit and many other things. With this state of the art equipment and over 20 years of construction knowledge we are sure we can provide you safe and accurate answers with every scan we do.

- Metal conduits and rebar
- ◆ Plastic conduits
- Bottom of slab

Call us to discuss your upcoming projects.

RUSA Wastewater Collection System Master Plan Amendment

2/13/25
2:00pm

Contact: Mark Knudson
Phone: (503) 371-8667
E-Mail: mknudson@sdao.com

Pre-Bid: Mandatory 1/27 2pm at the RUSA office, 1297 N.E. Grandview Drive, Roseburg OR.

Roseburg, Or. **Description:** The Roseburg Urban Sanitary Authority, requests proposals from qualified engineering firms for an amendment to the current Wastewater Collection System Master Plan, 2004 to include additional property added to the Authority's service area. The City projects approximately 673 dwelling units will be included in the Charter Oaks area. The proposed zoning designation for this area will be low density residential, meaning that the City anticipates single-family dwellings to be constructed. However, current zoning laws now allow for greater flexibility within traditional residential zones, enabling the possibility for duplexes, triplexes, and townhome type developments.

Redmond High School Modernization CM/GC

2/13/25
2:00pm

Contact: Chad Franke
Phone: (503) 508-7522
E-Mail: chad.franke@hmkco.org

Pre-Bid: Mandatory 1/22 2pm at Redmond High School, 675 SW Rimrock Way, Redmond, OR 97756

Redmond, Or. **Description:** The Redmond High School Modernization Project involves extensive upgrades, renovations, and targeted additions to address evolving educational programming needs and aging infrastructure. This comprehensive project reflects the District's commitment to providing modern, flexible, and functional learning environments while improving critical infrastructure systems. The District seeks to utilize a Construction Manager | General Contractor (CM | GC) delivery method to maximize collaboration, streamline project schedules, and enhance cost management. Infrastructure upgrades are central to the project and include substantial improvements to electrical and low-voltage systems. These upgrades consist of new interior and exterior lighting, a modern fire alarm system, additional circuitry to meet increased electrical demands, and the replacement of the hot and cold-water hydronic piping system.

Sky View MS Gym Addition

2/13/25
2:00pm

Contact: Daniel Bogaert
E-Mail: daniel.bogaert@bend.k12.or.us

Bend, Or. **Description:** Architectural services for the design and construction of the Project. Those services include but are not limited to pre design, design development, schematic design, construction documents, bidding and permitting, construction administration and post construction tasks for the following basic program outline:

- Add an auxiliary gym consisting approximately 9000 sq. ft.
- Reconfigure existing locker rooms to provide access to the new gym and improve visibility

Cuthbert Amphitheater Parking Lot Construction

2/13/25
2:30pm

Contact: Michelle Hahn
E-Mail: mhahn@eugene-or.gov

Pre-Bid: Non-Mandatory Thursday, January 30, 2025 at 10am via Microsoft Teams

Eugene, Or. **Description:** In general, work includes design development and bid-ready construction documentation from an existing concept design for a new parking lot in Alton Baker Park serving the Cuthbert Amphitheater and surrounding park areas.

Curry General Hospital Southern Expansion CM/GC

2/13/25
3:00pm

Contact: Ron Neet
Phone: 541-999-4847
E-Mail: Ron.neet@curryhealth.org

Gold Beach, Or.

Description: Construction of a 6,730 sqft, attached two story addition located on the south side of Curry General Hospital located at 94220 4th Street, Gold Beach, OR. The first floor to contain a Materials Management and Supplies area of approximately 1,710 sqft and a Bio-Med shop area of about 1,030 sqft, and renovation of the existing laundry/EVS area of about 390 sqft. The second floor to contain a new infusion therapy program of approximately 2,670 sqft, a chemotherapy drug mixing space and pharmacy support spaces and other support/ancillary spaces of 590 sqft. The project will also include - a remodel and expansion of the existing 3rd floor hospital pharmacy into the existing vacated Infusion space of 350 sqft. A Project Phasing Plan to include Utility Relocation work and phasing of construction is provided as part of the Construction Drawings.

2025 Hazardous Fuels Treatment Deschutes County Property

2/14/25
5:00pm

Contact: Kevin Moriarty
Phone: (541) 322-7117
E-Mail: Kevin.Moriarty@deschutes.org

Deschutes Co. Or.

Description: Treat and remove hazardous wildland fuels on Deschutes County property and private lands located in Deschutes County. Some of these properties are vacant lots, most will have homes and improvements. After reviewing proposals the County will identify qualified contractors to be listed in a "qualified pool" for the 2025 calendar year. During such year the County will award multiple service contracts to contractors in the qualified pool, based on County's determination of "best value" proposals for the particular property or properties to be treated.

RFQ Rogue Valley Airport Terminal Expansion

2/19/25
2:00pm

Contact: Traci Carrier
E-Mail: CarrieCD@jacksoncountyor.gov

Pre-Bid: Non-Mandatory 1/22 2pm

Medford, Or.

Description: Jackson County, which owns and operates the Rogue Valley International-Medford Airport, seeks a qualified team to contract with County to provide architecture and engineering design services for Phase 1 of the County's proposed 5-phase terminal expansion. The County desires the resulting Design Services contract to include options to extend the Contract for Design Services through phases 2, 3, 4 and 5 of the Project. The County intends to build the Project through a construction manager at risk ("CM@R") delivery method, and expects to retain the services of a CM@R contractor after procuring Design Services to work in collaboration with the firm providing Design Services. The selected design team will assist the County in the bid process to select a contractor. Phase 1 focuses on the airport's immediate need for added airline gates and expanded departure lounge space—along with corresponding amenities and support spaces.

Coquille Community Building Reroof

2/20/25
2:00pm

Contact: Tess Guyer
Phone: 541- 269-1166
E-Mail: general@hge1.com

Pre-Bid: Mandatory 1/30 11am at the project site, 115 N Birch Street, Coquille, OR.

Coquille, Or.

Description: Approximately 14,000 sq. ft. reroof of the Coquille Community Building, including removal of existing roofing and inspection and repair of the roof substrate. The roof consists of approximately 7,000 sq. ft. of low slope membrane and 7,000 sq. ft. of asphalt shingles, with an alternate bid for standing seam metal. Additional work will include the repair of siding and trim, and the installation of permanent access provisions including a roof access hatch, roof ladders, and inspection anchors. To preserve the historic character of the facade, custom sheet metal will be required to replace a concealed gutter feeding internal downspouts.

SOU South Mountain Avenue Property

2/28/25
5:00pm

Contact: Ashley King
Phone: 541-552-8055
E-Mail: generalcounsel@sou.edu

Pre-Bid: The University will hold one (optional) pre-bid meeting and property tour. There will be an option to attend the Pre-Bid meeting over Zoom by RSVP'ing to generalcounsel@sou.edu or calling 541-552-8055 for assistance.

Ashland, Or.

Description: Prime Residential Use Development property for sale in Ashland, Oregon. Approximately .38 acres of low-density multiple family zoned property. Southern Oregon University, although not required to do so, has made the decision to accept bids for the property to maximize the value for Oregonians. The University is looking for traditional cash offers, but is open to creative offers that may generate revenue and serve to address both the short-term and long-term financial needs of the University. The University is not obligated to accept any of the bids submitted.
