Why would your BUSINESS want a BROKER rather than an AGENT?

West Coast Insurance Brokers is different than your typical agency. We put our client's best interests at heart. We shop all the insurance companies—many you won't have access to—and find the most competitive rates and coverage.

How We Go Above & Beyond

- 24/7 Customer Service
- Advocates on your audits
- Sends updates to CCB on your behalf
- Assist with paperwork
- Updates to endorsements & Certificates

Sophia Adams, President

We Specialize in Contractors Insurance

- Contractors License Bonds
- General Liability
- Payment Performance Bonds
- Commercial Auto Insurance
- Workers Compensation Insurance

(CA - DBA Sophia Adams Insurance Services)

At West Coast Insurance Brokers, our mission is to redefine the insurance experience. As President and an active broker, I founded this company with a belief in going beyond mere sales to empower individuals and businesses through personalized insurance solutions. We are dedicated to navigating the complex world of insurance, tailoring our services to meet the unique needs of each client. Our commitment extends beyond transactions; we cultivate an environment where our team members thrive and where customers feel supported, educated, and empowered. By prioritizing assistance over sales quotas, we strive to build lasting relationships built on trust, expertise, and genuine care.

WELCOME OUR NEWEST MEMBER!

EARTHPIER

Viking
CONCRETE CUTTING INC.

Brokk 90

- Remotely controlled complex robotic device.
- One of the most capable machines for demolition in confined spaces.
- Capable of outproducing a full crew of conventional labor.
- Reduces the risk of injury associated with using manual labor.
- Reduces human exposure in harsh environments.

Call to discuss your upcoming projects.
Klamath Falls: 541-884-1399 • Medford: 541-773-2420

Paving at RV Park & Boardwalk

5/5/25
2:00pm

Contact: Travis Webster
Phone: (541)469-2218
E-Mail: travis@portofbrookingsharbor.com

Brookings, Or.

Description:

Existing RV Park Access Road (Exit Road to Boat Basin Road)
Asphalt overlay, minimum of 2 inches, over existing asphalt roads and pavement, minimum of 4 inches, over existing ground at the RV Park with standard asphalt mix. The Port estimates approximately 4,000 square feet of overlay and 3,000 square feet of pavement. Some grading by contractor is expected along the inner edge of the road to match the overlay pavement with new pavement.
Existing Boardwalk Area
Pavement, minimum of 3", over existing ground at the boardwalk with standard asphalt mix. The Port estimates approximately 1,600 square feet for this area. The Port will excavate this area to grade for the asphalt. There are several utility boxes and electrical panel to pave around.

Stony Point Fence Construction

Lakeview Fire Station Seismic

5/8/25
3:00pm

Contact: Steven Davidson
Phone: (541) 884-7421
E-Mail: stevend@zcsea.com

Pre-Bid: Mandatory 4/23 11:30am at 245 North F Street, Lakeview, OR

Lakeview, Or.

Description: Rehabilitation of the existing lateral system components in order to meet the requirements for "life safety" and "immediate occupancy" as outlined in ASCE 41-17. This will be accomplished by adding to or altering the existing fire station structure and lateral load path to the building foundation. It is the intent of the city of Lakeview to enter into a CM/GC contract with the selected CM/GC, which will include: (a) pre-construction phase services, and (b) construction phase services dependent upon Town's satisfaction with the result of the pre- construction phase services and mutual agreement on a GMP amendment.

Water Supply & Storage Improvement Project

5/9/25
2:00pm

Contact: Erin Kiser
Phone: (530) 244-0202
E-Mail: ekiser@paceengineering.us

Pre-Bid: Mandatory 4/4 10am at the City of Yreka City Hall Council Chamber.

Yreka, Ca.

Description: Constructing a new 1,000,000-gallon welded steel tank, a 250,000-gallon welded steel tank, booster pump station modifications, one well and well building, and one pressure-reducing valve station; installing 410 feet of 12-inch water main, 2,900 feet of 8-inch water main, and two fire hydrants; existing tank demolition; and miscellaneous improvements, complete.
Engineer's Estimate: \$5,550,000 to \$6,150,000.

Electrical Upgrades for Water Capacity Treatment Upgrades

5/9/25
2:00pm

Contact: Katy Wright
E-Mail: glidewaterassociation@gmail.com

Glide, Or.

Description:

Electrical and excavation services for the project are sought by an Electrician. Such services include:

- Conducting assessments of existing power supply needs and new power supply needs for the water treatment capacity upgrades project.
- Evaluation of site plans to determine best power supply upgrade installation locations for current operations and for the new water treatment capacity upgrades.
- Working with Pacific Power to install a fully functional power meter base at the WTP and working with Pacific Power to transfer from current service power meter to new upgraded power meter service.
- Excavate electrical trench(es) around existing underground utilities for the new power conduit line from Pacific Powers power pole to the new power meter location.
- Plan proper phasing for an efficient and timely transition of power service from old power meter to new power meter so that the WTP is not without power for more than 8 hours.
- The new power meter and all other electrical equipment necessary for this service upgrade shall supply the manufacturer's recommended power to all of GWA's current equipment and new equipment in the water treatment capacity upgrades project.

Demo Public Safety Relocation Elevated Platform Remediation

5/9/25
2:00pm

Contact: Kara Flath
Phone: (541) 463-5608
E-Mail: flathk@lanecc.edu

Eugene, Or.

Description: Provide Construction Management/General Contracting (CM/GC) Services for Building 12 Demolition, Public Safety Relocation, and Elevated Platform Remediation Project. The selected CM/GC firm will provide construction management and general contracting services, starting with preconstruction services and extending through construction. The project includes providing logistics coordination and construct the building modifications for the relocation of LCC's Public Safety office currently located in Building 12 to Building 15. In addition, the contractor team should construct the remediation addressed by deferred maintenance issues with the elevated platform that is adjacent to Building 15. Be prepared to work closely and in collaboration with several other AE firms that are directly linked to this scope, namely the site civil access and parking lot work associated with Building 15, the demolition of adjacent Building 12, and the Woofter Bolch Architects team selected to design the Building 15 Public Safety Relocation and Elevated Platform Remediation work.

CONCRETE CUTTING INC.

Concrete Scanner (GPR)

Our concrete scanner is one of the newest tools we have at Viking Concrete Cutting. Using ground penetrating radar (GPR) we have the ability to scan up to 20 in. deep in many different surfaces. We can locate things such as rebar, post tension cables, conduit and many other things. With this state of the art equipment and over 20 years of construction knowledge we are sure we can provide you safe and accurate answers with every scan we do.

- Metal conduits and rebar
- ◆ Plastic conduits
- Bottom of slab

Call us to discuss your upcoming projects.

Health Education Hub Stewart School

5/28/25
3:00pm
Arcata, Ca.

Contact: Addie Dunaway
E-Mail: Addie.Dunaway@humboldt.edu

Pre-Bid: Non-Mandatory 4/30 2pm via Zoom

Description: Renovation of an existing two-story Type-V building located in Arcata, CA (the Stewart Building). It is envisioned that upon completion, the 41,781-square-foot renovation will consist of: office space, classrooms, student areas, and specialized health education environments. These include both low-fidelity and high-fidelity simulation spaces designed to support immersive learning experiences. Site work, structural, MEP, and building enclosure upgrades are anticipated.
The Project Direct Construction Cost Budget is \$16,413,000.

North Medford High School Gym Rebuild CM/GC

5/29/25
2:00pm
Medford, Or.

Contact: Pam Thoren
Phone: 541-842-1118
E-Mail: Pam.Thoren@medford.k12.or.us

Pre-Bid: Non-Mandatory 5/8 10am Meet in the northeast parking lot nearest the gym at NMHS located at 1900 N. Keene Way, Medford OR

Description: The Medford School District has chosen the Construction Manager/General Contractor (CM/GC) project approach over the more traditional design-bid-build in order to obtain the earliest occupancy of the NMHS Gym at a Guaranteed Maximum Price (GMP). In addition, the project sequencing, scheduling and logistics required to complete the work within the earliest reasonable time can achieved by the CM/GC approach. It is the intent of the District to enter into a contract with the selected CM/GC, which will include pre-construction services with a GMP for the entire scope of work.

Shasta Elementary School Flooring Overlay

Smoke House Construction

5/30/25
5:00pm

Contact: Charley Reed
Phone: 530-627-3446 ext 3029
E-Mail: creed@karuk.us

Happy Camp/
Orleans, Ca.

Description: Constructing a community smoke house and mesh racks in Orleans and Happy Camp, CA. Contractors may choose to bid solely on the construction of the smokehouses or to include educational resources—such as material supply lists, step-by-step instructions, blueprints, and similar materials. Proposals that incorporate the educational component will be given preference. Additionally, priority will be given to bidders who are able to construct smokehouses at both project locations. Responsibilities include purchasing materials necessary for the construction, developing educational resources, coordinating with Food Sovereignty Staff for site visit(s), communicating dates for construction, and constructing the smoke house and mesh racks. The scope of work includes purchasing appropriate materials (redwood/cedar lumber, drying racks, roofing materials, nails, screws, hinges, etc.), developing education resources (materials needed, step-by-step process, blueprint), attending planning meetings with site supervisors and Food Sovereignty staff, preparing (cleaning debris, leveling the ground) in the identified location and constructing the Smoke House.
