Why would your BUSINESS want a BROKER rather than an AGENT?

West Coast Insurance Brokers is different than your typical agency. We put our client's best interests at heart. We shop all the insurance companies—many you won't have access to—and find the most competitive rates and coverage.

How We Go Above & Beyond

- 24/7 Customer Service
- Advocates on your audits
- Sends updates to CCB on your behalf
- Assist with paperwork
- Updates to endorsements & Certificates

Sophia Adams, President

We Specialize in Contractors Insurance

- Contractors License Bonds
- General Liability
- Payment Performance Bonds
- Commercial Auto Insurance
- Workers Compensation Insurance

West Coast
Insurance Brokers, Inc.

(CA - DBA Sophia Adams Insurance Services)

At West Coast Insurance Brokers, our mission is to redefine the insurance experience. As President and an active broker, I founded this company with a belief in going beyond mere sales to empower individuals and businesses through personalized insurance solutions. We are dedicated to navigating the complex world of insurance, tailoring our services to meet the unique needs of each client. Our commitment extends beyond transactions; we cultivate an environment where our team members thrive and where customers feel supported, educated, and empowered. By prioritizing assistance over sales quotas, we strive to build lasting relationships built on trust, expertise, and genuine care.

Elk River Hatchery New Rearing Ponds

7/29/25
2:00pm

Contact: Julie Cone
Phone: 971-446-8783
E-Mail: julie.l.cone@odfw.oregon.gov

Port Orford, Or.

Description:

1. Base Bid: Construction of two (2) new concrete rearing ponds, including feed and discharge piping, metal fabrications such as embeds, grating, and handrails, placement of concrete and necessary reinforcement, routing of electrical service for outlets and fixtures, and earth-work and excavation necessary for the improvements.
2. Base Bid: Construction of a new pump station including wet wells for diverting flow from the existing pond discharge, concrete slab and foundation for a future pump house to protect electrical and mechanical equipment, and necessary wiring and electrical service with the potential to include a backup generator or the ability to connect backup power.
3. Bid Alternate 1: Construction of two (2) additional new concrete rearing ponds, including revisions to the piping, metal fabrications, and electrical service to accommodate the increased number of ponds.
4. Bid Alternate 2: Paving of selected areas as shown around the new ponds with a 4" hot mix asphalt pavement.

Structural & Architectural Steel Fabrication

Mohawk River Road Overhead to Underground Conversion

7/30/25
10:00am

Contact: Cassie Stavros
Phone: 541-744-7419
E-Mail: cassie@epud.org

Pre-Bid: Mandatory 7/9 1pm at Mohawk River Road, just east of Marcola Road

Marcola, Or.

Description: EPUD will construct a new underground single phase primary mainline following Mohawk River road starting just east of Marcola Road (MP 0.08) to just west of Thetford Lane (MP 0.64), approximately 0.56 miles, plus various primary and secondary taps/services. The Contractor Work on this project will consist of the installation of all underground facilities (conduit, cabinet and transformer sleeves with grounding, secondary pedestals/junction boxes, and pole sleeves) prior to EPUD crew work.

Crazy Creek Fence Construction

7/30/25
10:00am

Contact: Chad A.T. Bullock
Phone: 208-373-4128
E-Mail: chad.bullock@usda.gov

Prineville, Or.

Description: This project consists of two parts: 1) the removal and disposal of old, damaged fence and subsequent construction of new fence – approximately 30 miles of 3 wire fence and 44 miles of 4 wire fence. 2) The maintenance of damaged fence back to functional condition – approximately 6 miles of 3 wire fence and 9 miles of 4 wire fence. The fence line right-of-way (ROW) corridor (four feet of either side of fence lines – eight feet total) needs to be cleared by the contractor before fence construction begins. Standing dead trees will need to be felled to reduce risk to fence line. Work consists of falling all standing dead 6" DBH and less for distance of 20' from centerline of fence each side. Standing dead larger than 6" DBH will be identified by government and paid per each. Fence material will be provided by the contractor.

Odell Lake Sand Shed Repair

7/30/25
10:00am

Contact: David Dethloff

Seismic Rehabilitation Maple Middle School

7/31/25
2:00pm

Contact: Steve Perking
Phone: 541-572-1220
E-Mail: StevePerkins@mpsd.k12.or.us

Myrtle Point, Or.

Description: The Myrtle Point School District (the "District") is seeking proposals from firms for the structural engineering and design services for the Seismic Rehabilitation of Maple Middle School. The District intends to use either the typical Design-Bid-Build procurement project delivery method or the CM/GC procurement project delivery method for this Project.

The scope of work also includes the following services:

- Develop all construction documents for the project required for a CM/GC or hard bid construction delivery methods.
 - Assist the District with the entitlement of the projects through the Authorities Having Jurisdiction and the State Historical Preservation Office.
 - Provide all construction administration services necessary for the implementation of the projects
- Assist District Staff with SRG reporting requirements for the project as required.

Road Drainage Improvement Umpqua National Forest

7/31/25
2:00pm

Contact: Jake Howard
Phone: (503) 600-4697
E-Mail: jake.e.howard@odfw.oregon.gov

Pre-Bid: Mandatory 7/22 10:30am starting at the Tiller Ranger Station, 27812 Tiller Trail Hwy, Tiller, OR.

Tiller, Or.

Description: Improve the road drainage along USFS roads 1610-500. To protect spawning habitat for Oregon Coastal Coho and Winter Steelhead. Drainage improvement and recontouring will minimize the potential of sediment loading into Section Creek and the potential for road failure during extreme weather events in this high gradient area.

Karuk DOT requires a pool of qualified firms with capabilities in design, planning, and estimating strategic projects from early 2023-2025 with possible extension. Karuk DOT is seeking one or more firms under this solicitation with experience planning and estimating public works projects with Tribes, on tribal lands, and in coordination with stakeholder agencies such as cities, counties, USFS, Bureau of Indian Affairs (BIA), Federal Highway Administration Department of Transportation and California Department of Transportation (Caltrans).

Viking

CONCRETE CUTTING INC.

Concrete Scanner (GPR)

Our concrete scanner is one of the newest tools we have at Viking Concrete Cutting. Using ground penetrating radar (GPR) we have the ability to scan up to 20 in. deep in many different surfaces. We can locate things such as rebar, post tension cables, conduit and many other things. With this state of the art equipment and over 20 years of construction knowledge we are sure we can provide you safe and accurate answers with every scan we do.

Call us to discuss your upcoming projects.

Pile Wall Failure Repair Project

8/6/25
3:00pm

Contact: Paul Slater
Phone: (541) 396-7660
E-Mail: pslater@co.coos.or.us

Pre-Bid: Mandatory 7/28 8am on site along Ross Inlet Road at Mile Post 5.05

Coos County, Or.

Description: Project consists of about 90 feet of failed retaining wall, which impacts the southbound lane of Ross Inlet Rd. The initial wall was informally constructed some 4 feet off the fog line and consists of vertical steel pipes placed on six-foot centers pushed into the ground to a depth of +/- 20 feet. Lagging was placed between the pipes to the upper 12 to 15 feet exposed face to support the road backfill. Assessment of the pre and post failure photos show that the entire wall system has failed outward with the pipe piles rotating outward several feet indicating several feet insufficient pile embedment.

8/15/25
5:00pm

Contact: Catherine Scobby
Phone: 541-366-0872
E-Mail: c.scobby@portofportorford.org

Port Orford, Or.

Description: This project aims to meet the urgent and immediate need for undiluted seawater access among various businesses and organizations operating within the Port's vicinity. The Port's Supplemental Seawater Delivery System is intended to provide access to undiluted sea water to support current and planned operations requiring this resource. These include but are not limited to the holding of live fish and other organisms for commercial, aquaculture, retail, and research purposes. The proposed system must be capable of providing flow through seawater access with temperature control, as well as filtration prior to discharge that meets applicable State and Federal standards.

8/29/25
3:00pm

Contact: Dana Pearce
Phone: (541) 450-6014
E-Mail: dpearce@grantspassoregon.gov

Grants Pass, Or.

Description: To identify feasible and potential uses for the Reed Building / Caretaker's Cottage structure in Riverside Park from parties interested in partnering with the City of Grants Pass. Respondents to this Request for Expressions of Interest (RFEI) will submit a proposal detailing how the building would be used and any anticipated changes to the site within and immediately around the building.

Engineering Services Seismic Rehab Project

9/2/25
2:00pm

Contact: Tom Davidson
Phone: 541-582-0678
E-Mail: tom@evfire.org

Rogue River, Or.

Description: Perform a seismic evaluation of the building, per American Society of Civil Engineers. Develop rehabilitation and mitigation strategies per ASCE Standard 41-17 and the 2022 Oregon Structural Specialty Code ("OSSC"). It is the wish of the District to rehabilitate the building to meet the rehabilitation objective of "Immediate Occupancy".

The scope of work also includes the following services:

- Develop all construction documents for the project required for a CM/GC or hard bid construction delivery methods.
- Assist the District in the selection process for a CM/GC firm if CM/GC is selected as the method of delivery.
- Assist the District with the entitlement of the projects through the Authorities Having Jurisdiction and the State Historical Preservation Office.
- Provide all construction administration services necessary for the implementation of the projects.
- Assist District Staff with SRG reporting requirements for the project as required.

Seismic Rehab Fire Station 404

9/5/25
4:00pm

Contact: Ryan Herrera
Phone: 541-504-5014
E-Mail: ryan.herrera@rdmfire.org

Redmond, Or.

Description: Conducting selection procedure for an engineering/architectural firm to design and oversee the seismic retrofit of Fire Station 404. The District plans to award a contract to the highest ranked proposer selected from those submitting proposals. The anticipated contract or contracts will include: all design work; site analysis; assistance with contractor solicitation and award process; construction oversight; and procurement of all necessary government permits.

- If the District elects to use the CM/GC project procurement method, develop all construction documents required for a CM/GC construction delivery method.
